I think #1 sounds best. I'll do that.
Thanks.

Hello Jim,

I have a couple of ideas for the plate on the Jetta:

1. You can take an "M" plate off of the TDI's that are being picked up next week, if you want to do your drive today or early next week.
2. We can bring you an "M" plate next week when we come to pick up the TDI's as mentioned above
3. We could have Bill bring you an "M" plate today if you don't want to swap from one of the other cars.

Being as they are manufacturer plates, they can be transferred between vehicles, and aren't tied down to any one in specific.

Let me know what you think. Thanks Jim.

Regards,
